Dear Friend,

Anastasia and I have been married for just over 10 years now. We have 2 boys - 4 years and 8 months - talk about being busy. Since the boys came into this world, we have been on a single wage, knowing that the only place for a Mother is with her baby. We don't want to miss a single part of our children's development in the very precious first years of their lives.

3 years ago, we bought a franchise business that cost us alot of money. The problem that we had experienced was spending tiresome long hours in the business whilst my wife was home with the children. We had no time to enjoy our family and to enjoy each other. Anastasia started investigating into home based businesses, so we could earn extra cash whilst staying home with the boys. We came across this business opportunity and have never looked back. Not only has Anastasia been able to stay at home but it also gave me the opportunity to stay home as well!!!!

I am now very happy to have cut back my hours drastically so that I can enjoy my family more, especially during the early stages of our son's lives.

We knew that working for someone else was not an option for us. We thought of buying another business but the start up costs and general time and expenses was not appealing to us. So finding this Golden Egg was just what we were looking for. A highly lucrative home based business, with low start up costs, a 25 hour week and most of all, all the benefits of having your own business while working from home.

To your success!

If you're ready, I'll show you **a very simple 3-step system (that is NOT MLM)**, that I'm using to work from home 15-20 hours a week. And it's given me the ability to **create an income and a life of freedom that I could never achieve in another home business.**

And I'll share it with you. In fact, you'll discover:

- **A no-guesswork blueprint** for reaching an executive-level income within six to twelve months
- **How to earn an executive-level income** with less effort than it takes to earn \$100 a month in other programs
- **A Proven-to-Produce Marketing System** that attracts real people like you. Utilize the same marketing tools as the top producers in the industry.
- **Absolutely NO convincing, persuading or "sales closing"**. All presentations, training and "answering questions" is done for you by our system!

If you're like I was, you're already breathing a sigh of relief because all the hassles have been removed. In fact, let me share some basic facts with you!

- **FACT: This is NOT an MLM**
- **FACT: This business is totally portable.** If you have a cell phone and a laptop, you can do this business by a pool, from a hotel balcony, from an island....anywhere! □
- **FACT: This is not a business where a tiny handful of people at the top make all the money.** This business places the top income within reach of NEW associates as well as the heavy hitter.
- **FACT: No more wimpy commissions.** Instead of earning a few percent on someone's purchase, just one or two customers per month can place you in the top 5% of earners in America.
- **FACT: Huge tax advantages .** If you're not operating a home business, you may be losing thousands of dollars a year in deductions you probably already deserve!

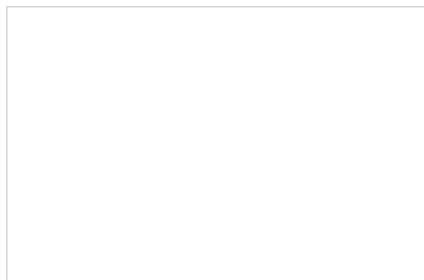

- **FACT: Customer pays YOU directly.** No more waiting for 7-45 days for a company to mail you a check. You do the work today, you get paid today!

- **FACT: Proven Results.** Be mentored by an alliance of successful six and seven-figure earners who will lay out an exact roadmap for your success.

This is a solid business, with a proven track record of success...

Real People, Real Results!

As a single Mom with 2 children and a full-time job, I jumped into this business and was able to walk away from my job and home to my children in my second month in business. By plugging into the system and following the advice of the leaders, I now work from home and have substantially increased my income. My children and I travel the world together and I no longer miss the important events in their lives. Now I get to teach others how to duplicate my results to start making the kind of

money they really want.

I had spent 14 years in the retail automobile business in different levels of management. The grueling 65+ hour weeks without any Saturdays or Holidays off meant I missed a lot family time and social events. Then I found this opportunity. It is a simple but effective business model with superior products, a lucrative compensation plan and an awesome group of people who know how to have fun. This business offered me the opportunity to create my own destiny and enjoy more time with my family.

■ We got started with this business 4 and 1/2 years and continue to have sleepless nights because of our excitement!! The ability to have a life where we are at home with our girls everyday being witness to their greatness is priceless to us. We wake up with our 3 year old daughter, Grace, coming down the stairs to climb in bed with us.....now, that's an alarm clock! Our 12 year daughter, McKenna spends as much time as she wants with her Mom and Dad sharing about her life. This is the life we would see glimpses of before we became entrepreneurs. Now, we travel the world, generate an incredible income, and assist others to do the same. Everyday, we are so grateful to spend time together as a family.

I love this business! I found this opportunity in February when I was searching for a way to achieve financial freedom. My husband and I are farmers and we were so over long hours and hard work and little time for ourselves and family. We have 6 children and I wanted to find something that would allow us to live life to the fullest and have a ton of fun and something that I loved doing. When I first got started I jumped in

without hesitation as I could see this was the fastest easiest way of reaching financial freedom. My purpose in life is to inspire and empower myself and my family and as many people on this planet as I can and I get to do this everyday. Plus, I'm making a phenomenal income! A perfect combination for success and for me.

Ken and I live each day filled with gratitude for this opportunity we've found here. It has been more than a year since we got started here and our life today is totally different than it was a year ago. We are the primary influence in our boys' lives and the time we get to spend together as a family is priceless. Thank you to the awesome community of leaders here who give wholeheartedly of their time to help each of us achieve the results we came here to get.

Thank you for your support and leadership!

■ After having created and developed countless businesses since the age of 19, offline and then online, I was never satisfied with my results or the amazingly long hours, often working 24, 48 and even 72 hours non-stop and almost always, seven days a week! Then one day, after struggling online for three years, I stumbled upon this website and was completely blown-away. Due to my past, my head was saying "This really does seem too good to be true" but my 'heart' was screaming out "THIS is it. Go for it!" That was almost 3 years ago and I'm now extremely happy to admit that my "heart" was much wiser than my head! Since getting started, I've not only developed a 'true' entrepreneurial mindset but in addition to the amazing income, I've made genuine friends on a global scale and for the first time in my life, I can say that "I'm actually enjoying and having FUN with my work... if you can call a few hours a day, 4 days a week " work!"

We are proud to be a part of this extraordinary group of people. The **support and direction** we have received has been phenomenal and truly a key to our success.

Zenaida L., Florida

I found this business totally by accident. I always wanted something that would help me really live my life to the fullest, but I had given up on the idea years ago. I was working a corporate job for almost 9 years, I had been downsized and downsized. Finally I had it when my salary was cut by 30%. I knew it was time to do something different. While over a my friends Mike's house, he told me about this opportunity. I was floored at his lifestyle and the income he was able to generate in such a small amount of time, in just 6 months. If my friend could do this, I knew I could certainly do it too. He is one of those super laid back kind of guys. And with my energy I new I could make this explode. I started in mid July 2004. Today my life is drastically different. I work out of my home office in NYC. I gave up the suit for jeans, sweats and shorts. And I spend most of my day doing what I love: working out, shopping, volunteering and walking my dog Cheila. And I have already tripled my income this year working this business 20-25 hours a week.

John & Shannon L., Arizona

We were tired of working so hard for so little. Literally, we felt like hamsters on a wheel...trying to work harder and harder just to pay for the things we weren't even satisfied with. When we found this business, we were so excited and jumped in. Within 90 days we were making more in a month than Shannon made teaching for an entire year. So, we quit are jobs and bought ourselves 2 new Lexus. We've been travelling the world together ever since having a blast and making more money than we ever thought possible. We live in the home we love, drive the cars we want and live a life of total freedom.

FREQUENTLY ASKED QUESTIONS

Is training and support provided?

Absolutely. We have an entire "buffet" of resources including live training calls on everything from marketing to mindset each week. You'll also have access to the 7-Figure Alliance. This is a group of very successful 7-Figure producers ready to assist you in your success.

How much time will I have to invest in order to be successful?

Great question. If you're coachable and trainable, are willing to follow a

simple step-by-step system, then you will be able to see a substantial profit by working only 5-15 hours a week. With the leverage in our system, you really can work less and earn more.

What is a realistic income goal for someone who's just getting started?

The term "realistic" automatically requires you to think smaller than you want to. It assumes that you can't have what you want....you can only have what is "realistic".

I'm not interested in such language. I'm interested in working with people that want an UN-realistic income! Someone's who's got huge goals and the determination to do something very "abnormal".

If you're coachable, trainable and don't try to reinvent the wheel. If you're willing to follow every step I'll show you how you can turn your present monthly income into a good weekly or daily income goal.

What does this business consist of?

We're in the direct sales business. We are marketing a tangible product to the end consumer. A product that there is a massive market for. In fact, we're in a multi-billion dollar industry marketing a product that people literally spend millions of dollars on daily. The market is huge.

This isn't multi-level marketing (MLM), network marketing, or a pyramid scheme. It's not gifting, a chain letter or selling some lame digital product like ebooks and downloadable nothings.

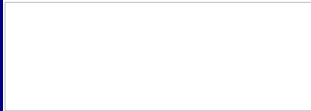

We have a real home office based in the U.S. We have real staff. A real company founder. A real track-record of success. And a real opportunity for you to create the income you've always wanted.

You will be following a very simple "paint by numbers" system that works for schoolteachers, lawyers, doctors, auto mechanics, airline pilots, stay-at-home moms, homeschoolers, pastors, and anyone else who's sincerely interested in following a proven system to wealth.

All the marketing tools are part of our proven-to-produce system.

It's real. And you'll get all the details in the next few minutes. **So, how serious are you? Fill out the form above and make a decision for YOUR financial future!**
